

Transforming Interior Spaces

Wooden Slat Acoustic Panels

Premium Acoustic Range

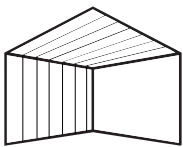

Why choose Supertec Wooden Slat Acoustic Panels?

Supertec Wooden Slat Acoustic Panels are locally manufactured and combine a modern timber aesthetic with improved acoustic comfort, creating warm, visually striking interiors for a wide range of applications.

Wood veneer finish

A contemporary wood veneer finish that adds warmth, texture and natural style to any space.

Suitable for wall and ceiling applications

Versatile design that delivers a seamless look across both walls and ceilings.

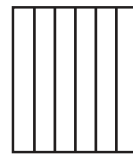

A decorative feature with practical performance

Enhances interiors with depth and character while delivering measurable acoustic benefits.

Improved acoustic comfort

Helps to reduce noise and echo, creating quieter, more comfortable environments for work and leisure.

Simple & clean modular panel format

Easy-to-handle panels designed for straightforward installation and a clean, consistent finish.

Backed by Supertec support

Quality products, dependable supply and expert support you can rely on.
